[Data Sheet](#)

375 lb.

DESCRIPTION

Looking for a stacker? These stackable staging cages offer easy mounting of single or multiple projectors. The projector is mounted to a plate on the interior of the cage, leaving 2 inch-3 inch of space on all six sides of the projector. These protective stacking cages can be used singly or connected to each other top to bottom or left to right. Includes mounting interface.

FEATURES

- Protective stackable cage for extra large projectors
- Can be stacked vertically or horizontally
- Designed for specific projector chassis: Christie LX120 & LX1500, Eiki LCXT4, LCXT5 & LCXT9, Sanyo PLCXF42, PLCXF46N and PLCXF47
